JET EVOLUTION

Global Express, SN 9005, N618WF

Exclusively Offered by Jet Evolution For Sale or Trade

Fly Farther, In The Spacious Global Express

The Global Express set a new world standard for performance, range, speed, safety and comfort. Designed from the inside out, the Global Express cabin is one the most flexible and elegantly appointed of any business aircraft. 27 large windows shower the cabin with natural light, and the 100 percent fresh-air system and a low cabin altitude to help reduce fatigue on long flights.

Exceptional Comfort & Service

From the moment you step onboard the Global Express, you'll notice the expansive cabin, individual cabin controls at every seat, high-definition entertainment system and satellite phone, as well as international and domestic WiFi internet service.

N618WF is available immediately for sale or lease.

Total Baggage Capacity	190 Cu Ft

The ultra-long-range Bombardier Global Express offers passengers a large spacious cabin with three distinct cabin areas. Each area can be converted into a sleeping configuration allowing passengers to gracefully move from work to sleep to a fine meal or entertainment during a long flight without much effort.

The forward cabin is outfitted with four fully reclining individual chairs with adjustable lumbar support & footrests. The mid cabin features a 4-place dining/conference grouping opposite a credenza with office equipment and storage. The aft cabin can be closed off for privacy and rest with a 4-place divan quickly convertible to a bed opposite two additional club seats and large aft lavatory.

The luxurious cabin was modernized in 2017 with tan leather seating, contemporary hide divan, black patterned carpeting, quarter-figured red eucalyptus veneer cabinetry and gold hardware.
